10 April 1984

MEMORANDUM FOR: DDI

FROM: Executive Director

SUBJECT: Critical Intelligence Needs

1. Here is a list of "critical intelligence needs" which have been identified by Intelligence Community agencies as candidates for the Critical Intelligence Committee to study. The CIPC staff assembled the list at the DCI's request.

2. I would like the DI (or possibly the IPC) to review the list, decide whether CIA has additional intelligence problems to add or strongly held views about inclusions, suggest a strategy for focusing CIPC interests and prepare a briefing package for me by 18 April.
